16 I, Joselyn Lee, plead extreme violation of my civil Rights
17 since I declared my candidacy for U.S. Congress. Immediately after
18 my declaration, I was subjected to toxic carcinogenic weapons, putrid
19 bacteria and fungi, inserted deep into my car with intention to end my life
20 and my bid for Congress.

22 My car was vandalized with a toxic smell that made it
23 difficult for me to breathe, and made my heart suffer irregular beats.
24 Several transient small stroke symptoms followed the irregular beats,
25 from which I fortunately recovered from, except for a new habit
26 of slower, more deliberate speech.

28 We need to save humanity from death threats used on the
29 world, not just in tampering elections, but through these same ways,
30 they tamper every aspects of life, of every human, dog and animal
31 affected by the out-of-control madness to pull wool over human
32 and judges' eyes.

34 From international soccer players, to American basketball players,
35 from United States citizens babies to top American University professors,
36 death threats were given.

3 Staff related to the Obama Administration committed slavery,
4 and blocked Indian American civilian citizens who had first asked
5 me to run, from signing nomination papers through threats of
6 death, false representations, and harassment of me.
7
8

9 These threats are well known to first responders who tried
10 to enable me to become Congressperson, because I am the
11 only person who puts the sufferings of those forced against
12 their will to sign perjuries first & foremost.

13
14 Obama, though now a former President of the United
15 States, still fear impeachment as Mueller had testified that
16 a President of the USA may be impeached after his
17 Presidency instead of during his Presidency to avoid disruption
18 of his duties as President during his Presidential term.
19

20 This is the *prima facie* case. Additional irregularities
21 may be pleaded in the presence of the judge.
22 For example:

23 The death threats on those initially excited about my seeking
24 signatures for nomination, were given in the format of
25 hackers inserted numbers that are homonyms to "death", and
26 posted worldwide on a social media. The hackers who
27 gave the death threats to anyone signing the nomination
28 papers bragged with a shadowy graph posted over the
29 photo of the nomination paper, showing how the enthusiasm
30 descended from maximum sky high level, to minimum, even
31 before I finished posting all the pages. In other words, the
32 hackers admitted their effectiveness in interfering with the
33 Primary Election through Intimidation, which is clearly
34 prohibited by the Civil Rights Act of approximately 1964.
